

One System. Every Brand. **Total Flexibility.**

*The Arrowhead ACM Compatibility Matrix
for confident, specification-ready design.*

FREEDOM TO DESIGN
ACROSS BRANDS.

Flexibility

Without Compromise.

Architects shouldn't have to choose between design freedom and system compatibility. Arrowhead's façade system is **engineered for universal integration**, supporting every major ACM manufacturer and finish so you can specify confidently, regardless of panel brand.

Why This Matters:

- ✓ Simplifies specification across multiple suppliers.
- ✓ Reduces risk of substitution conflicts.
- ✓ Provides consistent structural and aesthetic performance.
- ✓ Ensures compliance and warranty continuity.

Arrowhead's design is panel-agnostic giving architects and spec writers the flexibility to select the best product for each project's form, finish, and performance needs.

COMPATIBILITY MATRIX

BRAND	arrowhead [®] FLEX [®]	arrowhead [®] LEAN [®]	arrowhead [®] FLUSH [®]
Vitrabond [®]	/	/	/
Alpolic [®]	/	/	/
Alucobond [®]	/	/	/
Reynobond [®]	/	/	/
Other Brands	/	/	/

Certification Summary:

Arrowhead FLEX and Arrowhead LEAN systems have been fully tested and certified to meet **AAMA 508/509** standards for air/water resistance, structural performance, and system drainage efficiency.

Design Benefit:

This compatibility allows architects to mix and match panel brands on a single façade system maximizing creative flexibility and budget control.

See multiple options for all the components of a wall assembly to ensure a compliant wall assembly.
